Easy and User-friendly Operation

TANO is a software program you can control by your body movements and voice. Just stand in front of the sensor and start TANO!
A lot of games are ready to provide you with physical therapy, training and exercise.
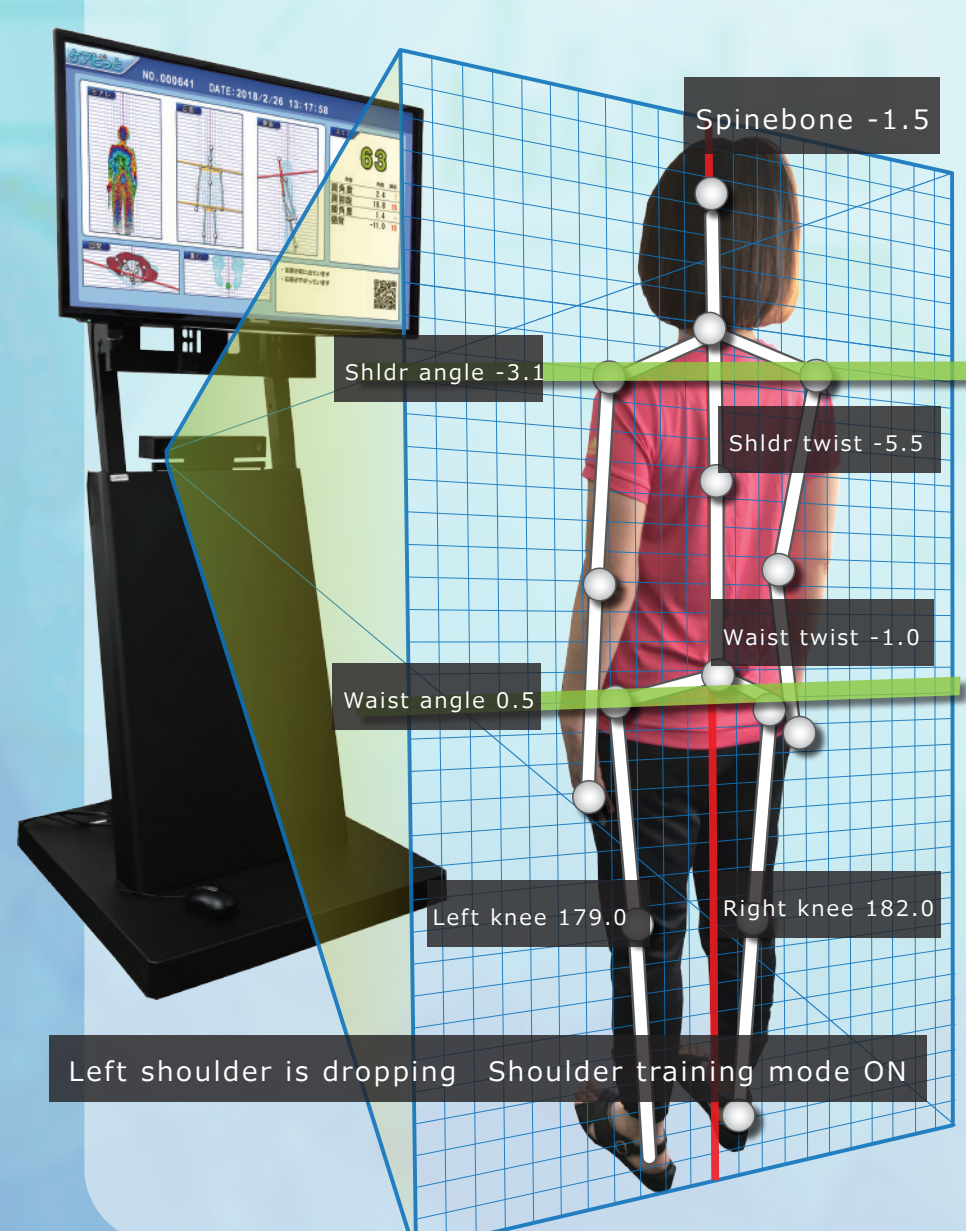

Move Your Body and Shout with your Friends!

Enjoying TANO will make your body move automatically without straining. TANO's movements are suitable for physical therapy. Everyone will benefit using TANO regardless of age.

AI System for Measurement + Training

This function will automatically provide the recommended games to solve posture-related problems, according to your bone-line measurement.
Start a new fitness everyday!
